Career Objective

Passionate about taking on challenges, I design and develop exceptional, user-friendly websites that are more functional and beneficial for both users and owners. Dedicated to becoming a successful and honest backend developer by continuously improving my skills.

Projects

1. Tech Treasure

[Website Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies Used: HTML, CSS, Tailwind CSS JavaScript, React, MongoDB, Node.js, Express.js.

Overview: Developed a comprehensive online marketplace for software, AI tools, gaming software, and web applications, facilitating seamless transactions between users and developers; increased developer sign-ups by 50% and monthly sales revenue by 30%.

Features:

- Evaluated and approved product entries for the Popular page, leveraging user feedback
- upvotes to drive items to the Trending page; achieved a 25% increase in user interactions and sales.
- An online payment system is integrated using the international payment gateway Stripe.js.

2. Radiant Reverie

[Website Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies Used: HTML, CSS, Tailwind CSS JavaScript, React, MongoDB, Node.js, Express.js.

Overview: A parlor service application for Brides, Bridegrooms, Gents, and Kids, offering booking services with plans to add and expand skin treatment options in the future.

Features:

- Integrated booking system for parlor services.
- Allows users to choose and book their desired parlor services.

3. Crafted Figures

[Website Link](#) | [GitHub Client](#) | [GitHub Server](#)

Technologies Used: HTML, CSS, Tailwind CSS JavaScript, React, MongoDB, Node.js, Express.js

Overview: The web application showcases handmade and antique products for sale, featuring a gallery displaying various items.

Features:

- This is an online shop for the display and sale of unique handmade goods.
- The shop offers rare and distinctive items available for purchase and sale.

Skills

- **Technology Skills:** HTML, CSS, JavaScript, React, MongoDB, Tailwind, Node.js, Express.js
- **Soft Skills:** Team collaboration, Project management, Responsible & Time Management
